Action E.3 – Infographics in 2021 and 2022

LIFE-IP NATURA.SI

LIFE17 IPE/SI/000011

Authors: Vesna Stanić and Nuša Stanić, Zavod Štirna

Beneficiary responsible for implementation: Štirna, Institute for sustainable solutions

Gradišče pri Vipavi, 7th January 2023

English summary

Description of the purpose - planned and executed activities:

Zavod Štirna has planned infographics in the project to present the complexity of Natura 2000 data and certain subjects in more user friendly form.

Methodology

Based on data and according to the newest trends in design Zavoda Štirna has prepared data collection, verification and design solution of the infographics.

Outcomes and results

Six infographics were prepared, published and distributed in 2021 and 2022 by Zavod Štirna. Following infographics were prepared:

1. [Natura 2000 in Slovenia](#)
2. [Forest of Natura 2000 in Slovenia](#)
3. [Animal species of Natura 2000 in Slovenia](#)
4. [Plant species of Natura 2000 in Slovenia](#)
5. [Infographics on invasive crab species \(*Faxonius limosus*\)](#)
6. [Slovenian public opinion about Natura 2000](#)

Conclusion

Infographics are widely used not only for communication purposes, but also in several presentations of Natura 2000 in Slovenia.
